AI Product Manager | **Product Strategy, AI Automation & MVP Launch**

EDUCATION

HSE University (Higher School of Economics)

Moscow | Expected 2027

Bachelor of Business and Economics, International Program

Certifications

- AI for Product Managers — BOS Shelf (2027)
- CJM and CustDev Tools — ProductStar (2026)
- Metrics and Models for Project Managers — Shelf (2025)

EXPERIENCE

Personal AI Projects

May 2026 – Present

Independent AI Builder

- Built **expat networking web app** solo via vibe coding (Cursor + Claude)
 - Configured **Claude + Telegram + Whisper** voice pipeline end-to-end, independently
 - Developing **AI agent for ABC/XYZ inventory analysis** using **n8n** (in progress)
 - Built **conversational automation bots** in **Voiceflow** for real business use cases
- Skills Used: Claude API, Cursor, Telegram Bot API, Whisper, n8n, Voiceflow, Prompt Engineering, Facebook API*

Consulting Project — Food Court "Molot"

January 2026 – 2026 May

AI Analyst (Freelance)

- Audited **operational and procurement data** using Claude + Google Sheets
 - Built **automated reporting system** to track cost categories across departments
 - **Result:** estimated **–18% reduction in procurement costs**
- Skills Used: Claude, Google Sheets, Data Analysis, Workflow Automation*

Yonma Yon — Local Startup

November 2024 - 2025

Product Manager / Co-founder

- Conducted **customer discovery**: 10+ user interviews, analyzed insights via **NotebookLM** and **ChatGPT**
 - Defined product hypotheses across monetization models, UX flows, and user scenarios
 - Designed and launched **MVP**: landing page + Telegram bot
 - Configured **AI agents** to automate incoming request processing via **Voiceflow + n8n**
 - Opened **B2B direction**: analytics-as-a-service offering for business partners;
 - **Result:** 150+ users acquired, first B2B inquiries received
- Skills Used: CustDev, CJM, MVP, Voiceflow, n8n, NotebookLM, ChatGPT, Telegram Bot API*

IDF Lab — Analytics Project (HSE University)

June 2023 – November 2024

Data Analyst

- Performed **RFM segmentation** of client database for an external business client
 - Delivered **retention recommendations** based on customer segment behavior
 - **Result:** estimated **+15% increase in repeat-purchase retention rate**
- Skills Used: RFM Analysis, Google Sheets, Data Analytics, AI-assisted Research*

Synergia University

August 2023 – April 2025

Client Relations Coordinator

- Managed portfolio of **40+ clients**: onboarding, support, and contract oversight
- Gathered client requirements and translated them into **technical specs** for the delivery team
- Monitored timelines and quality across concurrent accounts; kept clients updated throughout
- Used **Claude** and **ChatGPT** to accelerate document preparation and data structuring

- **Result:** 3 projects on time with no delays, **NPS 62→78**, response **time -30%**
- Presented process improvements at internal team meetup
Skills Used: Client Management, Requirements Gathering, Excel, Google Sheets, Claude, ChatGPT, Documentation

Instameal — FoodTech Startup

March 2024 – July 2024

Product Manager / Co-founder

- Launched product from zero: **customer discovery**, **CJM**, **MVP** development, first paying users
- Built MVP via vibe coding: Telegram bot + website; designed **UI flows in Figma**
- Set up **conversion funnel** and product metrics dashboard; tested user activation mechanics
- Coordinated **cross-functional team of 8** across logistics, development, and marketing
- Used AI for hypothesis generation and product research
- **Result:** ~400 users, ~40% conversion rate

Skills Used: CustDev, CJM, Figma, Telegram Bot API, Product Metrics, Scrum, AI Research

PROJECTS

Expat Networking Platform

May 2026 – Present

- Built **full web application** solo using **Cursor** (AI-assisted IDE) and **Claude API**
- Deployed **Telegram bot** as the primary user engagement channel

Skills Used: Cursor, Claude API, Telegram, Vibe Coding

AI Agent for ABC/XYZ Business Analysis

2026 – In Progress

- Building **AI agent** that processes **Google Sheets** inventory data and outputs **prioritized action plans**
- Designed for small business owners with no technical background required

Skills Used: Claude API, n8n, Google Sheets, Prompt Engineering

Claude + Telegram + Whisper Voice Pipeline

2026

- Configured end-to-end pipeline: **Whisper** transcribes audio → **Claude** processes → **Telegram** delivers
- Set up independently, without templates or tutorials

Skills Used: Whisper API, Claude API, Telegram Bot API

SKILLS

Product: Product Discovery, CustDev, CJM, User Stories, Backlog Prioritization, Hypothesis Formation, A/B Testing, MVP, Scrum, SAFe (basic), NPS, LTV, CAC, Funnel Analytics

AI & Automation: Claude, ChatGPT, Prompt Engineering, NotebookLM, n8n, Voiceflow, Cursor, AI Agents

Tools: Google Sheets, Figma, Canva, Telegram Bot API, Whisper, Facebook API

Languages: English (B1 – Intermediate), Russian (Native), Turkish (B2), Uzbek (Native)

ABOUT

Product Manager who ships digital products hands-on, from customer discovery to live users. Built and launched multiple MVPs using AI tools. Configured Claude + Telegram + Whisper pipeline independently, shipped web apps via vibe coding, and developing an AI agent for business analytics. Use n8n, Voiceflow, and NotebookLM in real production projects. Writing about AI experiments publicly.
