## CORPORATE AI STACK

CLAUDE · CHATGPT · LOCAL MODELS

Full AI infrastructure for a company: model selection based on task requirements and data security, API integrations, employee training, internal documentation. Works with cloud solutions (Claude Enterprise, ChatGPT Team) and local models (Ollama). Result: the team saves 1-2 hours per person per day.

**discussed  
individually**

## AI SETUP FOR A DEPARTMENT

PM · MARKETING · SUPPORT

Configure AI for a specific team: audit current tasks, select the right model, set up workflows and prompts, train the team. 2-3 weeks from kickoff to working result.

**from 30,000 ₺**

## RAG ASSISTANT ON YOUR DATA

FROM KNOWLEDGE BASE TO 24/7 ASSISTANT

Turn your company's documents, knowledge base, or product catalog into an assistant that answers only from your data, with no made-up facts. Handles client and staff questions about services, pricing, policies, and procedures.

**from 40,000 ₺**

## PROCESS AUTOMATION

N8N

Connect your CRM, messengers, AI, and spreadsheets. A form submission becomes a CRM card, triggers a Telegram notification, and sends an AI reply to the client. Schema, setup, testing, instructions.

**from 15,000 ₺**

[LIVE DEMO: POS FRAUD ALERTS IN TELEGRAM](#)

## AI TOOLS AUDIT

Review your current stack (ChatGPT, Notion AI, Copilot): find where time and money are lost. Output: a 1-page optimization plan with priorities. 1.5-hour session + document.

**from 8,000 ₺**

## CONSULTATION: TASK REVIEW

1 HOUR

CRM, automation, AI tools, or processes. A clear action plan and tools matched to your situation. Zoom or call + written summary.

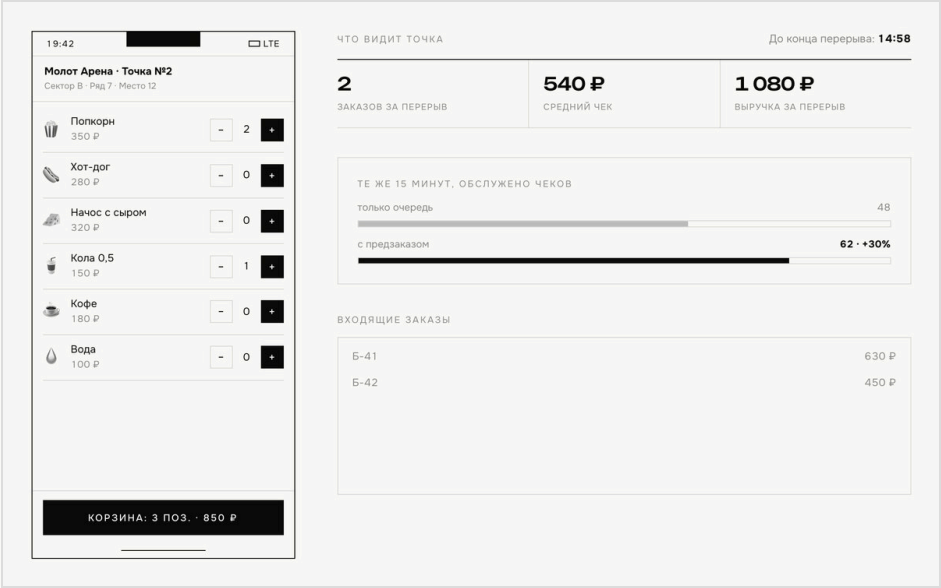

**from 3,500 ₺**

# AUTOMATION DEMOS

Four demos for local businesses that run in a phone browser: pre-orders from the stands, selling off evening leftovers, fraud alerts at the till, replies to map reviews.

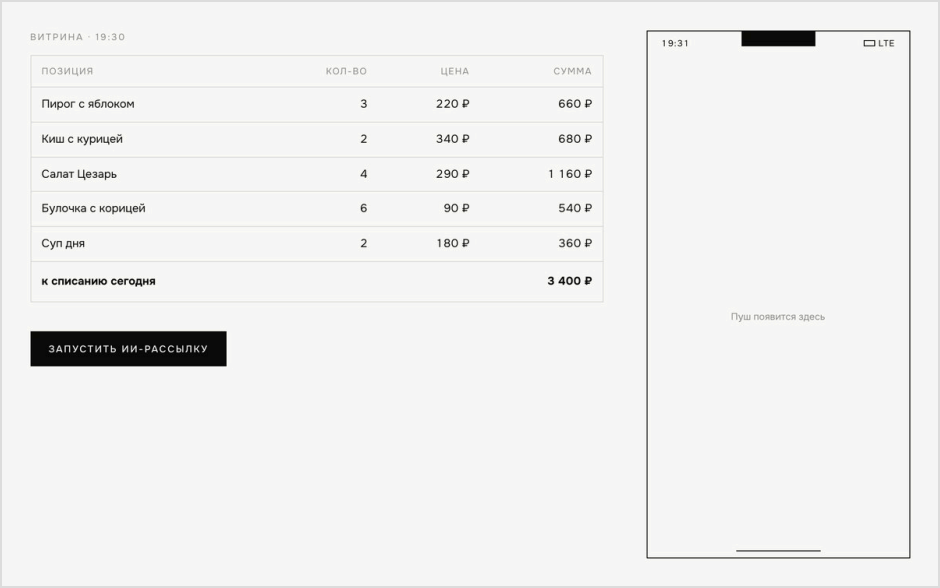

## PRE-ORDER FROM THE STANDS

A fan scans a QR on the seat, pays via SBP without getting up, and picks the order up at a separate window. The stand serves ~30% more checks per break.
